

Routes (78)

Methods	Path	Name	Action	Middleware
POST	api/member/login		App\Http\Controllers\API\MemberAuthController@login	
POST	api/member/login/resend		App\Http\Controllers\API\MemberAuthController@resend	
POST	api/member/validate-login		App\Http\Controllers\API\MemberAuthController@validateLogin	
POST	api/member/logout		App\Http\Controllers\API\MemberAuthController@logout	api, auth:sanctum
GET	api/member/details		App\Http\Controllers\API\MemberSelfUpdateController@details	api, auth:sanctum
PATCH	api/member/edit		App\Http\Controllers\API\MemberSelfUpdateController@update	api, auth:sanctum
POST	api/auth/login		App\Http\Controllers\API\AuthController@login	api
POST	api/auth/me		App\Http\Controllers\API\AuthController@me	api, auth:sanctum
POST	api/auth/logout		App\Http\Controllers\API\AuthController@logout	api, auth:sanctum
POST	api/auth/forgot-password		App\Http\Controllers\API\ForgotPasswordController@sendResetLinkEmail	api
GET	api/auth/password/reset/{token}	password.reset	App\Http\Controllers\API\ResetPasswordController@showResetForm	api
POST	api/auth/password/reset	password.update	App\Http\Controllers\API\ResetPasswordController@reset	api
GET	api/industries/getAll		App\Http\Controllers\API\IndustriesController@getAll	
GET	api/tags/getAll		App\Http\Controllers\API\TagsController@getAll	
POST	api/member/store		App\Http\Controllers\API\MemberSelfUpdateController@store	
GET	api/dashboard		App\Http\Controllers\API\DashboardController	api, auth:sanctum
POST	api/search		App\Http\Controllers\API\SearchController	api, auth:sanctum
GET	api/addresses	addresses.index	App\Http\Controllers\API\AddressesController@index	api, auth:sanctum
GET	api/addresses/{address}	addresses.show	App\Http\Controllers\API\AddressesController@show	api, auth:sanctum
DELETE	api/addresses/{address}	addresses.destroy	App\Http\Controllers\API\AddressesController@destroy	api, auth:sanctum
GET	api/industries	industries.index	App\Http\Controllers\API\IndustriesController@index	api, auth:sanctum
POST	api/industries	industries.store	App\Http\Controllers\API\IndustriesController@store	api, auth:sanctum
GET	api/industries/{industry}	industries.show	App\Http\Controllers\API\IndustriesController@show	api, auth:sanctum
PUT	api/industries/{industry}	industries.update	App\Http\Controllers\API\IndustriesController@update	api, auth:sanctum
PATCH				
DELETE	api/industries/{industry}	industries.destroy	App\Http\Controllers\API\IndustriesController@destroy	api, auth:sanctum
GET	api/users	users.index	App\Http\Controllers\API\UsersManagementController@index	api, auth:sanctum
POST	api/users	users.store	App\Http\Controllers\API\UsersManagementController@store	api, auth:sanctum
GET	api/users/{user}	users.show	App\Http\Controllers\API\UsersManagementController@show	api, auth:sanctum
PUT	api/users/{user}	users.update	App\Http\Controllers\API\UsersManagementController@update	api, auth:sanctum
PATCH				

Methods	Path	Name	Action	Middleware
DELETE	api/users/{user}	users.destroy	App\Http\Controllers\API\UsersManagementController@destroy	api, auth:sanctum
GET	api/roles/getAll		App\Http\Controllers\API\RolesController@getAll	api, auth:sanctum
GET	api/roles	roles.index	App\Http\Controllers\API\RolesController@index	api, auth:sanctum
POST	api/roles	roles.store	App\Http\Controllers\API\RolesController@store	api, auth:sanctum
GET	api/roles/{role}	roles.show	App\Http\Controllers\API\RolesController@show	api, auth:sanctum
PUT	api/roles/{role}	roles.update	App\Http\Controllers\API\RolesController@update	api, auth:sanctum
PATCH				
DELETE	api/roles/{role}	roles.destroy	App\Http\Controllers\API\RolesController@destroy	api, auth:sanctum
GET	api/permissions/getAll		App\Http\Controllers\API\PermissionsController@getAll	api, auth:sanctum
DELETE	api/members/{member}/media/delete		App\Http\Controllers\API\MembersManagerController@deleteMedia	api, auth:sanctum
GET	api/members/unverified		App\Http\Controllers\API\MembersManagerController@unverified	api, auth:sanctum
GET	api/members/tag/{tag}		App\Http\Controllers\API\MembersManagerController@tagWiseList	api, auth:sanctum
PATCH	api/members/{member}/mark-verified		App\Http\Controllers\API\MembersManagerController@markVerified	api, auth:sanctum
PATCH	api/member/{member}/attach/missions		App\Http\Controllers\API\MembersManagerController@attachMissions	api, auth:sanctum
PATCH	api/member/{member}/detach/mission/{id}		App\Http\Controllers\API\MembersManagerController@detachMember	api, auth:sanctum
GET	api/members/destroyed		App\Http\Controllers\API\MembersDestroyedController@index	api, auth:sanctum
PATCH	api/members/destroyed/{id}/restore		App\Http\Controllers\API\MembersDestroyedController@restore	api, auth:sanctum
DELETE	api/members/destroyed/{id}/ForceDelete		App\Http\Controllers\API\MembersDestroyedController@delete	api, auth:sanctum
GET	api/members	members.index	App\Http\Controllers\API\MembersController@index	api, auth:sanctum
POST	api/members	members.store	App\Http\Controllers\API\MembersController@store	api, auth:sanctum
GET	api/members/{member}	members.show	App\Http\Controllers\API\MembersController@show	api, auth:sanctum
PUT	api/members/{member}	members.update	App\Http\Controllers\API\MembersController@update	api, auth:sanctum
PATCH				
DELETE	api/members/{member}	members.destroy	App\Http\Controllers\API\MembersController@destroy	api, auth:sanctum
GET	api/tags	tags.index	App\Http\Controllers\API\TagsController@index	api, auth:sanctum
POST	api/tags	tags.store	App\Http\Controllers\API\TagsController@store	api, auth:sanctum
GET	api/tags/{tag}	tags.show	App\Http\Controllers\API\TagsController@show	api, auth:sanctum
PUT	api/tags/{tag}	tags.update	App\Http\Controllers\API\TagsController@update	api, auth:sanctum
PATCH				
DELETE	api/tags/{tag}	tags.destroy	App\Http\Controllers\API\TagsController@destroy	api, auth:sanctum
PATCH	api/mission/{mission}/detach/contact/{id}		App\Http\Controllers\API\MissionsController@detachContact	api, auth:sanctum

Methods	Path	Name	Action	Middleware
PATCH	api/mission/{mission}/detach/member/{id}		App\Http\Controllers\API\MissionsController@detachMember	api, auth:sanctum
PATCH	api/missions/attach/members		App\Http\Controllers\API\MissionsController@attachMembers	api, auth:sanctum
GET	api/missions/treeview		App\Http\Controllers\API\MissionsTreeViewController@index	api, auth:sanctum
PATCH	api/missions/treeview		App\Http\Controllers\API\MissionsTreeViewController@update	api, auth:sanctum
GET	api/missions/getAll		App\Http\Controllers\API\MissionsController@getAll	api, auth:sanctum
POST	api/missions/search		App\Http\Controllers\API\MissionsController@search	api, auth:sanctum
GET	api/missions	missions.index	App\Http\Controllers\API\MissionsController@index	api, auth:sanctum
POST	api/missions	missions.store	App\Http\Controllers\API\MissionsController@store	api, auth:sanctum
GET	api/missions/{mission}	missions.show	App\Http\Controllers\API\MissionsController@show	api, auth:sanctum
GET	api/missions/{mission}/edit	missions.edit	App\Http\Controllers\API\MissionsController@edit	api, auth:sanctum
PUT	api/missions/{mission}	missions.update	App\Http\Controllers\API\MissionsController@update	api, auth:sanctum
PATCH				
DELETE	api/missions/{mission}	missions.destroy	App\Http\Controllers\API\MissionsController@destroy	api, auth:sanctum
POST	api/activities/logs		App\Http\Controllers\API\ActivityLogsPaginateController@logs	api, auth:sanctum
POST	api/activities/user/{user}/actions		App\Http\Controllers\API\ActivityLogsPaginateController@actions	api, auth:sanctum
POST	api/reports/members		App\Http\Controllers\API\ReportsController@members	api, auth:sanctum
GET	api/reports/format	format.index	App\Http\Controllers\API\ReportFormatController@index	api, auth:sanctum
DELETE	api/reports/format/{format}	format.destroy	App\Http\Controllers\API\ReportFormatController@destroy	api, auth:sanctum
POST	api/imports/create		App\Http\Controllers\API\ImportsController@create	api, auth:sanctum
GET	api/imports/get_columns		App\Http\Controllers\API\ImportsController@get_columns	api, auth:sanctum
PATCH	api/imports/merge-duplicates		App\Http\Controllers\API\ImportsController@merge_duplicates	api, auth:sanctum
